**TO WHOM IT MAY CONCERN**

Subject : Letter of Recommendation for Dr. Fabio Ferrero

It is with great pleasure that I recommend Dr. Fabio Ferrero as a candidate for a position in your organization.

Fabio Ferrero worked since 2008 with BAM in a Research Project sponsored by the **PlasticsEurope** TFE Safety Task Force to understand the conditions which would lead to a TFE Explosion.

The **PlasticsEurope** TFE Safety Task Force is a global technical workgroup of **PlasticsEurope** with members from ACG Chemicals, Arkema, Daikin, DuPont de Nemours, Dyneon/3M, Gujarat (India), Solvay and Gore.

**PlasticsEurope** is one of the leading European trade associations with Centres in Brussels, Frankfurt, London, Madrid, Milan and Paris. They are networking with European and national plastics associations and have more than 100 member companies, producing over 90% of all polymers across the EU28 member states plus Norway, Switzerland and Turkey.

We were very impressed by Fabio.

His know-how on simulations and his methodical approach are undisputable.

He was able to understand what we needed and was able to convey his knowledge on simulating complex reactions in such a way that we understand what really happened moments before a TFE explosion was.

In addition he supported the TFE explosion testing to yield results which were important to improve the reliability of the simulations. Moreover he was able to simplify very complex approaches to more down – to – earth- engineering.

The publications as a result of his work reflect just a part of his capabilities.

The combination of his very pleasant personality, in depth fundamental know-how and drive for results makes him an excellent team player.

We will miss him, but it opens for you the possibility to hire Fabio. He will be a tremendous asset to your company and has my highest recommendation.

Sincerely,

A handwritten signature in blue ink that reads "Spoormaker". The signature is written in a cursive style with a large, sweeping initial "S".
